

INDEX OF NAMES FOR THE BOOK "News from Oconee Rural Communities 1888-

1909" - This index was compiled by me (Ashton Hester), by visually scanning the pages. Thus, it is inevitable that I overlooked many names, so the index should not be considered to be entirely complete. Also, there were numerous instances in which I was not certain if similar names were the same person or two different people. For instance, there might be a name John J. Doe in one place, and another, J.J. Doe in another place; or a name Sammy Jones in one place, and Sam Jones in another place. I tried in these instances to determine if they were the same person or two different people by examining the context in which they were mentioned. When I could not find any evidence that they were the same person, I listed them as two different people. Thus, if there are two names, John J. Doe and J.J. Doe, listed in the index, they might actually be the same person. Or, conversely, there might be a listing of "Doe, John J./J.J.," whereas they are actually two different people.
